PT			TWW		

How To Order

Step A - Determine the Wire Length

*Actual pre-tied wire lengths are roughly 6" shorter than the length specified due to the wrap

Step B - Determine the Wire Gauge (12g typ)

8 Gauge (.162)

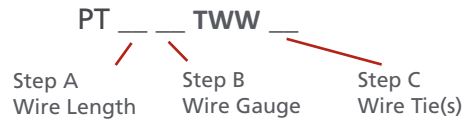

9 Gauge (.147)

10 Gauge (.135)

12 Gauge (.105)

8, 9, 10 and 12 gauge wire
typical tensile strength
= 70ksi (Meets ASTM A 641 Specs)

Step C - Choose Single. Double or Triple Tie

Add "D" for Double Tie or "T" for Triple Tie to the end of the part number when ordering

Part Number Example #1: PT612TWW = Pre-Tied, 6' Long, 12g Wire, Tie Wire Wedge Anchor

Part Number Example #2: PT612TWWDD = Pre-Tied, 6' Long, 12g Wire, Tie Wire Wedge Anchor, Double Tie
